### My TVs Menu

The following sections provide details for accessing the program guide, searching for a specific program, showing existing recordings or scheduled recordings, and using your smartphone as a working remote control with your set top box:

- **Remote**

This action allows you to use your smartphone as a functional remote control.

- **Guide**

The Guide allows the user to view guide information by time and date. Programs may be selected within from the guide to view program details, schedule future recordings, and watch program.

- **Channel Guide**

The Channel Guide allows the user to view guide information by channel. Program may be selected within the guide to view program details, schedule recordings, and watch program.

- **Currently Watching**

Shows the user what is currently being watched on the selected STB.

- **Recordings**

All existing and scheduled recordings may be viewed within the Recordings menu. Users may select a STB from within their home and view either Current, Future and Series recordings. Allows the management of recordings to include deleting recordings or series.

- **Search**

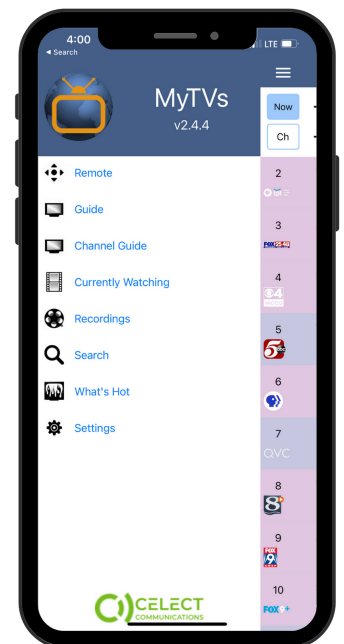

This action allows the user to search by titles, programs, keywords, or phrase for a specific program. Search results may be selected to view program details and schedule future recordings.

- **What's Hot**

What's Hot provides the user with real time information about the most popular watched programs in the user's area as well as the most popular recordings and most popular series recordings. Program may be selected from within What's Hot to view program details and schedule future recordings. User may tune their TV to a program by selecting "Watch" on the program details screen.

- **Settings**

Users can manage their account, switch accounts, add devices, and refresh user and guide data.

## Instructions

### Currently Watching

To see what is currently playing, select the Currently Watching from the MyTVs app menu.

1. Search uses the universal search feature to look for more show times, recordings, or VOD events.
2. Record allows the user to set a recording or series recording.
3. The Eye icon allows for HLS viewing of that show on a device.  
NOTE: Must have HLS signal on that particular channel.

### Recordings

1. To show existing recordings, scheduled future recordings, and series recordings, select the Recordings button from the MyTVs menu.
2. To view existing recordings, select the Recorded option at the top of the screen. To view future scheduled recordings, select the Future option. To view Series recordings, select the Series option.
3. You also have options at the top of the screen to customize how your recordings are listed –Alphabetical or By Date. You can also show the recordings Grouped or not grouped. And you can choose which Folder you would like to view recordings from.
4. When you select a recording, a Program Details window will appear with the program description, the air date and time, and the channel number the program will be aired on. To delete the existing recording or a future scheduled recording, click on the blue Edit which will bring up a Edit Recording screen. This screen will give you program details and allows the user to edit Start Time, Stop Time, and Folder. Click Delete Episode on the bottom of the screen to delete or Save Changes if any changes were made.
5. When you select a Series Rules, an Edit Series Rule page appears. This screen allows you to edit the number of episodes saved, Show Type, Start Time, Stop Time, and Folder where the recordings are saved. Click Delete Series Rule to delete or Save Changes if any changes were made.

3. Click on the Microphone button and speak the command.

Note: You must have Microphone and Speech Recognition activated on your smartphone in the MyTVs App settings.

Voice Commands 1.1

Voice Commands 1.2

### Audio Accessibility

Accessibility mode is not a MyTVs App setting. It is a device setting and called "Voice Over" on Apple Devices (<https://www.apple.com/accessibility/iphone/vision/>) or "Talk Back" on Android devices (<https://support.google.com/accessibility/android/answer/6283677?hl=en>). This mode will not just apply to the MyTVs app. Once enabled and in the accessibility mode, the device will talk back about what is happening on the device.
