

MosaicEdge™ Wi-Fi Solution

We Are
Your Local Service Provider

The Ultimate Wi-Fi Experience

Fast and reliable Wi-Fi is essential for your company's performance, especially with the popularity of bandwidth-hungry applications and software, but speed and coverage are just the beginning. Simplicity and control over your internet provided by MosaicEdge ensures you get the best experience for all your online activities.

Customized for your Business Needs

Incredible Connection

24/7 Tech Support

MosaicEdge Managed Wi-Fi

MosaicEdge managed Wi-Fi is your key to stress-free easy-to-use internet! When you sign-up, you get access to not only the fastest internet available, but also a high-quality router that is perfect for spreading your new fiber internet to every corner of the office! With speeds up to and soon beyond 2.5 Gig you'll never have to wait on your internet ever again, because your Wi-Fi should be working just as hard as you are.

Powerful App

One of the most convenient things about MosaicEdge is its powerful app that allows you to customize your internet to your company's specific needs! Everything from bandwidth tests to website blocking to setting connection priorities can be done through the easy-to-use settings interface.

Internet at the Speed of Light

Perfect for your business

The MosaicEdge Managed Wi-Fi product set provides safe, fast, and reliable WiFi coverage for businesses of all sizes. Powered by the MosaicEdge router with WiFi 6, this product can be managed from the MosaicEdge Mobile App for full control of permissions, priorities, and security. Managed Wi-Fi is a fully managed product with 24/7 technical support.

Our upgraded, fiber network provides the fastest speeds currently available with speeds all the way up to 2.5 gig and plans to quadruple that in the near future! This service also features symmetrical speeds meaning that your upload and download speeds are both the same which is essential for any company using video chatting or streaming. These symmetrical speeds are not available with any other provider in the area!

Managed Wi-Fi

Remote Management when you need it

If you need additional help with any technical issues, we got you covered with sophisticated remote monitoring and diagnostics that help us identify and resolve any problems you may be experiencing quickly and, in most cases, without having to send a technician to your business.

Our experienced business support representatives can see which of your devices are connected and which ones are having issues and help you resolve the problem quickly. In fact we can perform a wide range of diagnostics to make sure you're getting the best possible service.

Why MosaicEdge?
