Smart Home Checklist

Design Your Custom Smart Home!

It's time to simplify your living with smart home solutions that put you in control. Customize your space with the latest smart home technology that the world has to offer. Kick-start your smart project with one of our security bundles or choose from a wide variety of safety, entertainment, automation, and design products.

Indoor Smart Automation

-  **Low Voltage Pre-wiring** - prep your home for the future with the ability to support new technology.
-  **Smart Thermostat** - automate your home's temperature and improve efficiency remotely.
-  **Security Packages** - protect your home and family with a smart security system and instant alerts.
-  **Blinds/Shades** - Motorized and non-motorized options available from Hunter Douglas and Graber.
-  **Smart Lighting** - switch between your day and night preset scenes with the touch of a button.
-  **TVs and Soundbars** - Elevate your entertainment with sharp images and immersive audio.
-  **Smart Locks** - create custom codes to identify users and provide temporary guest access.
-  **Home Theater** - create the ultimate environment for movies, games, shows, and more.
